# FISHERY AND AQUACULTURE

## OUR TOTAL QUALITY ASSURANCE PROPOSITION

We go beyond testing, inspecting and certifying products; we are a Total Quality Assurance provider.

## OUR SOLUTION

We commit to offer trustworthy and independent service to our customers supported with a prompt feedback, attention to detail and first-class execution.

At your disposal is a one-stop solution for inspection services worldwide, reinforced with extensive analytical expertise and risk management tools. A reliable assurance of quality, quantity and packing, and of safety and traceability of any seafood.

## AGRITRADE SERVICE OFFERING FOR FISHERY AND AQUACULTURE

Our experienced and certified inspectors inspect, measure, weigh sample and determine quality and quantity of all types of seafood as per related standards (CODEX, UNECE, OECD, FAO National/International Boards etc.). They are available 24/7 to provide a full range of tailor-made services including fishery/aquaculture monitoring, data collection, seafood, water and animal feed sampling and testing.
